## **Summary:**

After the interviews, each rater was asked to complete their score sheet and submit it to the Chair of the Selection Committee independently. This spreadsheet represents the results as submitted. Overall, the results are very consistent. The rankings for Mortenson/Hampton and Turner/Sampson are a statistical "dead-heat." While fees could be included in selection committee analysis under #7: "Such other information as may be secured having a bearing on the selection," it is understood that fees and contract price will be a negotiated item.

## Notes:

- This rating sheet is in conformance with Administration Regulation #29 and EO 083016 (attached).
- Raters shall consider specific items enumerated in Section 19 of the RFP (attached) as part of the overall evaluation of proposals. Consideration of these items shall be reflected in the scoring of the various rating criteria above.
